#### AMERICAN DIVISION OF THE "INVISIBLE ARMY" OF IRELAND HAS BEEN DRILLING FOR TWO YEARS UNDER IRISH CHIEFS

Companies Have Been Drilling Under Orders of Irish Republican Army and Are Prepared to Take Up Arms for Ireland—Many Americans Not of Irish Blood in the "Invisible Army."

(Copyright, 1922, by the I. N. S.)  
NEW YORK, Jan. 14.—An American division of the "invisible army" of Ireland is in existence and has been for more than two years, it was learned today by the International News Service.

Companies have been drilling regularly in cities throughout the United States under orders of the chiefs of the Irish republican army, and have been prepared for call to Ireland to take up arms without any inkling of these activities.

Members of the "invisible" army number between 25,000 and 30,000, according to best estimates. The most amazing fact disclosed is that detachments sailed to Ireland from time to time without the knowledge of either the British or American authorities. It is known that companies from Philadelphia got across and it is estimated altogether between two and three thousand members of the "invisible army" on this side landed in Ireland and fought for the Irish republic.

How they got across, no one with the information will disclose. Queries to persons in a position to know, bring the answer:

"They went in the same mysterious way as DeValera came and went." A number of them, it was learned, were members of the 69th Regiment of New York, which distinguished itself in the war. Many were Americans without Irish blood, it is claimed. The utmost secrecy has guarded every movement of the American "invisible army." It is understood the members, who call themselves "Irish Volunteers," take an oath of secrecy and swear to support the Irish republic.

They cannot disband their companies until they receive orders from Ireland, it is said, and have continued to drill in their secret assembly places since the treaty with England was ratified. It is not believed they will be ordered to disband, but will be kept in training as long as the chiefs of the "invisible army" in Ireland think necessary.

Some of the members of the "invisible army" are said to be in the United States, and it is understood that they are being trained in the use of arms. It is also said that they are being trained in the use of arms. It is also said that they are being trained in the use of arms.

#### RAIL REDUCTIONS NOW WOULD RUIN GENERAL BUSINESS

WASHINGTON, Jan. 14.—Prominent railroads in the revenues of the railroads would be ruinous to the general business, W. L. Napoth, president of the Louisville and Nashville railroad, told the Interstate Commerce Commission today during its freight rate investigation. Existing wage scales are too high, Napoth asserted, telling the commission that "these rates cannot be reduced without a very material reduction in operating costs." He mentioned wages as the chief item in these costs.

"Operating costs are dependent upon a modification of wages and work in conditions of freight rates are to be brought down," said Napoth. "We hope to give the country cheap transportation but we likewise must get the things that we use cheaper than we are now getting them."

Napoth said that a revival in the business of the railroads would greatly increase the net income and would also eliminate some of the difficulties with which the roads are confronted because of the tremendous drop in their volume of business, and their ability to make corresponding reductions in operating costs.

#### PRINCE OF WALES IS UNINJURED IN RIOTS

LONDON, Jan. 14.—In response to urgent telephone messages from Buckingham Palace, the Irish chief today reassured Queen Mary that the prince of Wales was safe and that he had suffered no injury in the riots which greeted his appearance in London Friday.

#### "Hard Slodding" Predicted for Offer in Senate Where Fertilizer and Water Power Interests Are Strong—Entire Project, Together With Other Offers, to Be Digested Soon—Ford Turns Attention to the Government Wireless Station.

WASHINGTON, Jan. 14.—Content to "rest his case with congress," Henry Ford, will leave Washington late today for Buffalo, without holding further conference with government officials regarding his offer to take over and operate the government's nitrate plant at Muscle Shoals, Alabama.

Ford said he would "let things ride," as they are for the time being, until Secretary of War Weeks, has drawn up his offer in the form of a contract. This contract will be forwarded to his attorneys in Detroit, carefully examined by them, signed by Ford and returned to Weeks for submission to congress along with the offers of C. C. Tinkler, of San Francisco and Frederic C. Engstrom of North Carolina. The war department's comments on the merits of the proposals will accompany the papers.

At Buffalo, Ford indicated his mind will be diverted into channels other than Muscle Shoals. He plans to confer there with his managers on matters far removed from Alabama. Ford spent the morning here addressing his field men and local managers and later inspected the government's great wireless plant at Arlington. His engineers conferred with a number of congressmen who were interested in the disposition of Muscle Shoals.

"I am leaving no one in charge of my Muscle Shoals interests," said Ford in dismissing the subject. "The offer has been made and such steps as are necessary to present it to congress can be taken without the need of any of my representatives being in Washington."

Ford showed a disinclination to talk about his chances for obtaining the Alabama project, or his conference with Secretary Weeks. It was manifest, however, that he was not pleased over the latter, as he had expected his offer to be approved and accepted by the Secretary of War.

That the Ford offer will be made the subject of an intense and perhaps long and bitter fight in congress was apparent today. Ford's lieutenant, who accompanied him to Washington, said they expected the offer to meet "rough slodding," particularly in the Senate, where the fertilizer and water power interests will do their best to prevent the project from going through.

The fight on the Ford offer in congress is already under way. For the last week, members of both houses and government officials have been deluged with printed matter pointing out the defects in the Ford offer and generally belittling the whole Ford project.

At night on the Ford offer in congress is already under way. For the last week, members of both houses and government officials have been deluged with printed matter pointing out the defects in the Ford offer and generally belittling the whole Ford project.

The general belief prevails that Japan will yield the few points necessary to a settlement on Shantung in return for assurances that the conference will make short work of the 21 demands, which are of far more importance to Japan in every respect. Japan could win but a partial victory in Shantung in any event, while in violating she would strengthen her position on the 21 demands.

Foreign visitors, after several futile attempts to set definite dates of departure, are now at a loss to know when they may expect to leave Washington. None of them hope to depart, however, before the last week in January, if then. A plenary session for the ratification of the new naval treaty is hoped for some time next week, but this, too, is a matter of considerable doubt, it was admitted today.

#### CRIPPLED TRANSPORT IN PORT WITH GERMAN BRIDES

NEW YORK, Jan. 14.—The cargo transport ship, which is supposed to be carrying several hundred miles of cable, a few days ago, arrived here safely, early today.

Returning soldiers crowded the docks as the ship made her way to an army dock in Brooklyn. Many of the soldiers had German brides with them.

#### TEN NEW SUBS ARE STATIONED AT THE PHILIPPINE ISLES

WASHINGTON, Jan. 14.—Ten most modern submarines of the S type, including some of the best of the type in the American navy, have just arrived at Cavite, Philippine Islands, where they are to be stationed as part of the Asiatic fleet. It was learned today at the navy department.

Commanded by Captain Thomas Hart, U. S. N., and assigned to the tender fleet, the submarines will leave for Cavite on November 2, arriving at Cavite on November 12. The submarines will be stationed at Cavite, where they are to be stationed as part of the Asiatic fleet. It was learned today at the navy department.

#### DE VALERA AND FOLLOWERS BOYCOTT MEETING ACCOUNT TREATY.

DUBLIN, Jan. 14.—The southern Ireland parliament today ratified the Irish peace treaty. Eamonn De Valera, former "president of the Irish Republic" and his followers boycotted the meeting.

#### PROVISIONAL BODY WILL ACT ONLY FEW WEEKS BEFORE PEACE

Ratification by Dail Eireann Last Week Made Passage Treaty Assured.

The temporary provisional government or administrative commission includes Collins, minister of finance in the Sinn Fein cabinet and chief of the Irish republicans, and Alderman Cosgrave, E. J. Dunne, formerly chief liaison officer of the Irish Republican army; Patrick Hogan, Pincus Lynch, Joseph McGrath, Kevin O'Higgins and John MacNeill, chairman of the Dail Eireann.

Before the meeting opened it was reported that, for diplomatic reasons, Arthur Griffith, founder of the Sinn Fein, would not seek a place upon the commission and that MacNeill would be proposed as its head. It is likely that the life of the government will not extend over three weeks. As soon as the Westminster parliament convenes steps will be taken to bring the Irish Free State into being.

The ratification of the Irish treaty by the southern parliament was more or less a formality. Its fate was decided by the Dail Eireann one week ago today, when the pact was ratified by a majority of seven votes. It had been stipulated in the Anglo-Irish treaty, however, that the parliament would meet to approve the pact in order to confirm the validity of the law which had created the parliament. Little time was lost in discussion of the treaty. The followers of the Griffith-Collins faction had things their own way.

Griffith explained that the provisional government would execute the terms of the Anglo-Irish treaty but that the final word would remain in existence until a general election is held. He appealed to "every good Irishman" to support the new regime, saying:

"The provisional government will regard no distinctions in Irishmen. Its policy will be fair play all round and for all factions. Let us banish our old differences. New differences will arise of course, but only between Irishmen and one states."

Griffith assured the members of the southern parliament that amnesty will be extended to all imprisoned Irishmen.

#### THIRTY SINN FEINERS LIBERATED FROM PRISON

LONDON, Jan. 14.—Thirty Sinn Feiners, including the Rev. Father Thomas McSwiney, cardinal of Cork, were liberated from prison on the 13th. It was reported that they will return to Ireland in a few days.

McSwiney was an Irishman who was arrested in London in 1919. He was a member of the Irish Republican army and was active in the struggle for Irish independence.

#### OFFICES APPROPRIATION BILL WILL BE LAID OFF

WASHINGTON, Jan. 14.—In accordance with the plan of House leadership, the House will lay off the offices appropriation bill for the Senate to consider.

The bill, which was introduced by Representative McMillan, provides for the appropriation of funds for the offices of the executive branch of the government.

The bill is expected to pass the House in the near future.

## Prof. Ernest O. Sellers Speaker at Sunday Forum

As the attraction at the second Sunday Forum of the present season, Sunday afternoon at the Auditorium, Prof. Ernest O. Sellers will address the Forum on "White-washed or Washed White." Prof. Sellers is a famous camp singer and lecturer, having a wide reputation for his work among men in every station in life. In addition to his address, he will sing a number of camp songs and bring to his audience a message full of humor and inspiration. The address will be preceded by a brief musical program, beginning at 2:45. In the current number of the Journal of Religion the question of What is a Forum? is answered thus:

"It is a vaudeville performance, nor a motion picture melodrama, nor a hand concert, no, not even a stereopticon that furnishes the lure that draws the crowd to forum meetings. It is life, as we live it today, with all its problems and heartaches, with all its lure and significance, unfolded by leading men and women, who themselves have lived and thought in a large way, with all the marvelous reactions that come from hundreds of everyday men and women in the audience—it is this that attracts and holds the forum crowds. A live forum is as engaging as a vaudeville performance; something unexpected happening all the time. It is as absorbing as a motion picture, life speaking directly to you; it is as stirring as a band concert, putting your emotions on a thrill; and it is as true to life as the pictures from the stereopticon, for every participant in the audience gives you an instantaneous etching from real life.

"A forum audience is only the cream skimmed off the top of the crowd. It includes every class and kind, but only the most thoughtful individuals, the most earnest representatives of the different groups. The great body of the rank and file in almost every class is too inert to respond to the attraction of the serious discussion of public matters. It would rather be amused, go on a lark, soak up the comic supplement, or fall in the shade. No forum audience is not made up of the dregs of the upper or lower classes."

It is a remarkable tribute to the quality of residents and visitors when two thousand people will gather as they do at the Forum every Sunday afternoon at the Auditorium to learn from great speakers, speaking on worth while subjects. Every thinking person should attend this entire series this winter.

## Prominent Hotel Man and General at the Clarendon

Among the most prominent guests registered at the Clarendon hotel this season are General and Mrs. Marshall Orlando Terry of New York and Fort Myers. They arrived Thursday and will spend a few days at the Clarendon before proceeding to Palm Beach.

General Terry is proprietor of the Royal Palm hotel in Fort Myers and is on his way there from the Waldorf Astoria in New York, where he and Mrs. Terry make their home when in the North.

General Terry is largely responsible for many improvements which have been made in Fort Myers and vicinity, and was instrumental in constructing McGregor boulevard from Fort Myers to Punta Rosa on the Gulf of Mexico, a magnificent stretch of roadway eighteen miles long. He also built the sea wall at Fort Myers.

General Terry has had a distinguished career as a surgeon. After graduating from the Cleveland Homeopathic Hospital College in 1872 he spent two years in New York at the Ophthalmic and Aural Institute, Manhattan Eye and Ear Infirmary and the New York Eye and Ear Infirmary. He engaged in private practice until 1880 when he was appointed by Governor Cornell as a surgeon in the New York National Guard with the rank of major. In 1895 he was appointed by Governor Morton as surgeon general with the rank of brigadier general, and was reappointed by Governor Black in 1897.

President Cleveland appointed General Terry United States pension examining surgeon and for four years he was president of the board. When the Spanish-American war broke out President McKinley offered General Terry the post of chief surgeon of a division in the American army, but he declined because of his duties as surgeon general of the New York Guard.

General Terry is the inventor of the Terry stretcher and field case and the ambulance and regimental chest, all of which were adopted by the state of New York. He was decorated by the Onondaga County War Commission "in recognition of patriotic services during the war between the United States and Spain" and during the war with Germany he offered the government the use of the Royal Palm hotel at Fort Myers for war purposes. He is author of "The Soldier's Medical Friend," prepared as a gift to the soldiers of the allies.

General Terry is a prominent clubman, being a member of the New York Yacht club, the American Yacht club, Automobile Club of America, Gentry Farm Country club and the Coronado Country club of California. He also is a member of the League for Preservation of American Independence.

**Playground is Being Built For Children at Princess Islena**

Having built a special dining room for the little folk and established a kindergarten where they may receive instruction while their parents are guests of the hotel, Henry W. Haynes, manager of the Princess Islena, was busy Friday and Saturday installing a playground for the entertainment and amusement of the "youngster set" at the hotel.

The playground, which will be ready for use Monday morning, is being equipped with the Hill stand and playground outfit, consisting of two slides, four swings and two seesaw, and will prove a source of an unbounded delight to the little folk.

Sauntering a high price will make a "cool cheap."

## Prominent Hotel Man and General at the Clarendon

Among the most prominent guests registered at the Clarendon hotel this season are General and Mrs. Marshall Orlando Terry of New York and Fort Myers. They arrived Thursday and will spend a few days at the Clarendon before proceeding to Palm Beach.

General Terry is proprietor of the Royal Palm hotel in Fort Myers and is on his way there from the Waldorf Astoria in New York, where he and Mrs. Terry make their home when in the North.

General Terry is largely responsible for many improvements which have been made in Fort Myers and vicinity, and was instrumental in constructing McGregor boulevard from Fort Myers to Punta Rosa on the Gulf of Mexico, a magnificent stretch of roadway eighteen miles long. He also built the sea wall at Fort Myers.

General Terry has had a distinguished career as a surgeon. After graduating from the Cleveland Homeopathic Hospital College in 1872 he spent two years in New York at the Ophthalmic and Aural Institute, Manhattan Eye and Ear Infirmary and the New York Eye and Ear Infirmary. He engaged in private practice until 1880 when he was appointed by Governor Cornell as a surgeon in the New York National Guard with the rank of major. Notorious Negro  
Bootlegger Here  
Appointed Notary,  
People Indignant

The white people of Daytona have  
just awakened to the realization that  
S. S. Richardson, notorious as a negro  
bootlegger, has been appointed as a  
notary public of the state of Florida  
and many of the people are justly in-  
dignant that the appointment has  
been made.

"When the board of county com-  
missioners approved the bond of S. S.  
Richardson, a negro, and applicant for

appointment as a notary public, that  
body did not dream that Richardson  
was a negro," said C. L. Vining, county  
commissioner from the district em-  
bracing Daytona. "And I do not be-  
lieve that Governor Hardee or Sec-  
retary of State Crawford had any idea  
he was a negro when he made the  
appointment," concluded Mr. Vining.

Telegrams have been dispatched to  
Governor Hardee and Secretary of  
State Crawford calling their atten-  
tion to the fact that Richardson is a  
negro and that he has an unsavory  
reputation in the community.
